

Brief Profile

P. Ramakrishna has 43 years of experience in R&D, QA, Technology Transfer and HRD in Food Processing.

After completing M.Tech in Chemical Engineering in 1973 at Andhra University, Vizag and working as a research fellow for brief period, he joined CFTRI Mysore and worked in Food Process Engineering for about 15 years (1975-90). Subsequently, he joined R&D, Tata Tea Limited in 1990 and was Head and GM-R&D from 1997 to 2006 prior to retirement. Established School of Food Technology, started M. Tech & B. Tech courses and Food Testing Laboratory at JNTUK, B. Tech course at JNTUACEK, during 2011-2022 and M. Sc (Food Science and Technology at AKNU, Rajahmundry during 2023-24.

Actively associated in the development of Technical Know-how for many new products/processes (about 25) at CFTRI/TataTea and lot of them(more than10) were commercialized. Involved in about15 consultancy assignments out of which 3 were turnkey projects. Prepared number of Project/Technical reports.

Initiated basic work on engineering properties of Foods and coordinated Food Engineering course for M.Sc at CFTRI apart from Scale up of laboratory processes. While at Tata Tea, established Pilot Plants/Laboratories and initiated work on new product development. Streamlined the all agricultural/manufacturing practices in Tea, based on scientific inputs.

After retirement, established School of Food Technology at JNTUK, with support of Rs.75 lakhs from MoFPI in 2010-11. Designed and developed M.Tech course in Food Processing Technology. Today it is one of the best PG course in India with state of art facilities. Started B. Tech in Food Engineering in 2020-21, also first such course in AP.

Food Testing Laboratory was set up at JNTUK to provide easily accessible and affordable food quality testing facility in the region, with financial support of 157 lakhs from MoFPI, New Delhi in 2014. It is first such lab. in AP with NABL accreditation and FSSAI recognition and generating revenues of Rs. 2 lakhs/month. The lab was upgraded to test antibiotics & pesticide residues with grant in aid of 339 lakhs from AP Government. AFST(I) Kakinada chapter was started in 2016.

Started department of Food Technology at JNTUA College of engineering, kalikiri with B. Tech in Food Technology in 2018-19. Submitted a proposal to start Food Testing Lab at JNTUACEK to MoFPI and obtained a grant in aid of Rs. 6.4crores for Food Testing Laboratory.

M.Sc. (Food Science and Technology) course was started at Adikavi Nannaya University in 2023-24 in collaboration with CFTRI. All the students carry their project work at CFTRI during last/iv sem. Rs. 3 crores sanctioned for State of art laboratories under PM – USHA. First batch have completed.

Published 25 papers in reputed National and International journals, presented 15 papers in National/International symposia and filed 6 Patents (5India and one US).

Travelled widely to many international organizations/institutions. He was a Member of advisory committees/boards for many organizations. He was a member in expert panel on beverages (2015-22) and spices and herbs (2019) at FSSAI

AFST (I) Conferred ‘Fellow of Association of Food Scientists and Technologists’ (2005) for his outstanding contributions in the area of Food Science and Technology.

Andhra University nominated him as Honorary Professor (2021-23) at department of Food, Nutrition & Dietetic (first ever Honorary Professor at Andhra University).
